**\*\*\*NOTE: ALL Local Jingles SHOULD BE :05 IN LENGTH.**

We recommend that you time out your local spots to precisely :60 or :90 (depending on the stop set) and schedule the Local Jingle to be 'hard-started' as the last element in your break. The "0" Closure will then simply re-open the Network Audio and the next song will start at the end of your Local Jingle.

\*\*\*All times are approximate and may vary +/- 3 min. EXCEPT for the LOCAL BREAK at :55:50, the Local Jingle at :57:20 and the Legal ID and Start of Hour, which are exactly :59:50 and :00:00

\*The :10 STATION PROMO LINERS will float in different time slots each hour to keep the flow fresh!
